Sponsors Prospectus

Dear Partners and Sponsors,

On behalf of the Organizing Committee of the 17th European Academy Congress of DentoMaxilloFacial Radiology in 2020, it is my pleasure and great honor to invite you all to Jerusalem for an unforgettable congress with outstanding business opportunities to expose your products, your most recently developed technology and innovations.

We would like to provide an enjoyable and extraordinary blend of ancient and modern cultures for participants, in which special scientific presentations and social events will be organized.

We are determined to maintain the highest standards our participants have come to expect from the European meetings of the EADMFR. We will provide a fitting atmosphere and environment for the most recent developments and state-of-the-art practices in our profession. To this extent, we aim to offer a venue for showcasing scientific exchanges, from world renowned Keynote Speakers, to both oral and poster presentations as well as other formats in the form of workshops, round tables and possible live demonstrations, including all areas of maxillofacial imaging, new clinical and research developments in diagnostics, technical modalities, 3D innovations, Artificial Intelligence applications and education.

Maxillofacial radiology is constantly evolving and is essential for all different fields in dentistry. This conference is ideal for meeting dental and medical professionals from all over the world and a great opportunity for exchanging clinical knowledge and research innovations with practitioners from all different areas in dentistry and head and neck radiology.

The surge in maxillofacial radiology in recent years reflects the prerequisite to recognize our specialty all over the world and this congress is the most relevant stage to present and share our knowledge as well as to discover new technologies from our colleagues, industrial partners and exhibitors.

We look forward to meeting you all in Jerusalem 9-12 June, 2020

Silvina Friedlander-Barenboim
